Auditor General's Report

**TO: THE BOARD OF DIRECTORS
TRINIDAD AND TOBAGO UNIT TRUST CORPORATION**

**REPORT OF THE AUDITOR GENERAL OF THE REPUBLIC OF TRINIDAD
AND TOBAGO ON THE CONSOLIDATED FINANCIAL STATEMENTS OF
THE TRINIDAD AND TOBAGO UNIT TRUST CORPORATION FOR THE
YEAR ENDED 2008 DECEMBER 31.**

1. The accompanying Consolidated Financial Statements of the Trinidad and Tobago Unit Trust Corporation for the year ended 2008 December 31 have been audited. The Statements as set out on pages 1 to 47 comprise:
 - (i) A Consolidated Balance Sheet as at 2008 December 31, a Consolidated Income and Expenditure Statement, a Consolidated Statement of Changes in Equity and a Consolidated Cash Flow Statement for the year ended 2008 December 31 in respect of the Trinidad and Tobago Unit Trust Corporation;
 - (ii) A Balance Sheet as at 2008 December 31 and a Statement of Operations for the year ended 2008 December 31 in respect of the Growth and Income Fund (First Unit Scheme), the TT\$ Income Fund (formerly TT\$ Money Market Fund) (Second Unit Scheme), the Universal Retirement Fund and the US\$ Income Fund (formerly US\$ Monday Market Fund) respectively, and
 - (iii) Notes to the Consolidated Financial Statements for the year ended 2008 December 31 numbered 1 to 33.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

2. The management of the Trinidad and Tobago Unit Trust Corporation is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

AUDITOR'S RESPONSIBILITY

3. The Auditor General's responsibility is to express an opinion on these Financial Statements in accordance with section 30 (4) of the Unit Trust Corporation of Trinidad and Tobago Act, Chapter 83:03 (the Act) based on the audit. The audit which was carried out in accordance with section 30 (1) of the said Act was conducted in accordance with generally accepted Auditing Standards. Those Standards require that ethical requirements be complied with and that the audit be planned and performed to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Financial Statements in order to design audit procedures

Auditor General's Report (continued)

that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. It is my view that the audit evidence obtained is sufficient and appropriate to provide a basis for the opinion expressed at paragraph 6 of this Report.

AUDIT OF SUBSIDIARIES

5. The financial statements of the subsidiaries listed in Note 27 to the Consolidated Financial Statements which account for 1.05% of the consolidated total assets (2007: 0.65%), 3.58% of the consolidated total liabilities (2007: 3.45%) and 1.26% of the consolidated total income (2007: 1.10%), have been audited, where applicable, by auditors other than the Auditor General. My opinion, insofar as it relates to consolidation of balances in respect of the subsidiaries, is based solely on copies of reports of the other auditors which were received and information provided by the Corporation.

OPINION

6. In my opinion the Consolidated Financial Statements as outlined at paragraph one above present fairly, in all material respects, the financial position of the Trinidad and Tobago Unit Trust Corporation as at 2008 December 31 and its financial performance and its cash flows for the year ended 2008 December 31 in accordance with International Financial Reporting Standards.

Trinidad and Tobago Unit Trust Corporation
Notes to the Consolidated Financial Statements
 For the year ended December 31, 2008

1) INCORPORATION AND PRINCIPAL ACTIVITIES

The Trinidad & Tobago Unit Trust Corporation was established by the Unit Trust Corporation of Trinidad and Tobago Act (“the Act”), Chapter 83:03 of the Laws of the Republic of Trinidad and Tobago, generally to provide facilities for participation by members of the public in investing in shares and securities approved by the Board. The Finance Act of 1997 permitted expansion of the Corporation’s scope of activities to include other financial services, such as merchant banking, trustee services and card services.

The Corporation’s principal office is located at the UTC Financial Centre, 82 Independence Square, Port of Spain.

In addition to the Trinidad & Tobago Unit Trust Corporation, there are eight (8) subsidiary companies which comprise the Group.

2) SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these consolidated financial statements are stated below. These policies have been consistently applied to all years presented, unless otherwise stated.

a) Basis of Preparation

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and the Unit Trust Corporation of Trinidad and Tobago Act, under the historical cost convention, except as modified in respect of security valuation (see (d) below). The accounting policies in all material respects conform to International Financial Reporting Standards (IFRS).

The Group has not early adopted the following revised standards and IFRIC Interpretations that have been issued but are not yet effective. These changes either do not apply to the activities of the Group or have no material impact on its financial statements.

Trinidad and Tobago Unit Trust Corporation
Notes to the Consolidated Financial Statements
For the year ended December 31, 2008

2) SIGNIFICANT ACCOUNTING POLICIES (continued)

The preparation of financial statements in conformity with International Financial Reporting Standards (IFRS) requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and assumptions are based on historical factors and management's best knowledge of current events and actions. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised, or in any future periods, if applicable.

b) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Corporation and its subsidiaries drawn up as at December 31, 2008 and include all the assets and liabilities and results of operations of the Group. Subsidiaries are fully consolidated from the date on which control is transferred to the Group.

All material inter-company transactions and accounts have been eliminated in preparing the consolidated financial statements. Accounting policies of the subsidiaries are consistent with the policies of the Group.

c) Investment securities

Investment securities intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in exchange rates, are classified as available-for-sale. Available-for-sale investments are carried at fair value.

Investment securities with fixed maturities that management has the intent and ability to hold to maturity are classified as held-to-maturity. Held-to-maturity investments are carried at amortised cost, less any adjustment necessary for impairment.

Investment securities with fixed and determinable payments, but not quoted in an active market are classified as loans and receivables. Loans and receivables are carried at amortised cost, less any adjustment necessary for impairment.

Purchases and sales of equity investments are recognised at the trade date. Purchases and sales of all other security investments are recognised on the settlement date. Gains and losses from changes in fair value on investments classified as available-for-sale are recognised in equity. When the financial assets are disposed of or are impaired, the related fair value adjustments are included in the income and expenditure statement.

d) Security Valuation

The fair value of publicly traded securities is determined by reference to the prevailing closing market prices on the balance sheet date.

The carrying amounts of financial assets and liabilities with a maturity of less than three months are assumed to approximate their nominal amounts.

The fair value of unquoted securities is determined using the last traded price, which is provided by the issuer.

2) SIGNIFICANT ACCOUNTING POLICIES (continued)

e) Repurchase and Reverse Repurchase Agreements

A repurchase agreement is the sale of securities for cash with a simultaneous agreement to repurchase them at a fixed price on a contracted date. An interest rate is negotiated for the term of the agreement. A reverse repurchase agreement is the corollary of this and is the purchase of the securities for cash with a simultaneous agreement to re-sell them at a fixed price on a contracted date and an agreed rate of interest.

A repurchase agreement may be construed as a borrowing and in the normal course of business, the Corporation does not enter into repurchase agreements. However, as part of its short-term investment activity, it does enter into reverse repurchase agreements. Deterioration in the value of the securities bought under reverse repurchase agreements is materially covered through margin calls comprising cash and/or additional securities.

f) Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income and expenditure statement during the financial period in which they are incurred.

Where the carrying amount of property, plant and equipment is greater than its estimated recoverable amount, this carrying amount is written down to its recoverable amount.

Gains and losses on disposal of property, plant and equipment are determined by comparing the proceeds with the carrying amounts and are recognised within Other Income in the consolidated income and expenditure statement.

Freehold land is not depreciated. Leasehold land is capitalised and amortised over the term of the lease.

Depreciation on other assets, except for motor vehicles, is calculated using the straight-line method to allocate their cost or revalued amounts over their estimated useful lives as follows:

Property, plant and equipment category:	Estimated useful life:
Building	50 years
Office Improvements	7-15 years
Computer Equipment	2-8 years
Office Equipment	3-13 years
Furniture & Fixtures	3-10 years

Motor vehicles are depreciated using a rate of 25% per annum on the reducing balance.

The property, plant and equipment of the subsidiary Unit Trust Corporation (Belize) Limited (formerly Belize Unit Trust Corporation Limited) are depreciated on a reducing balance basis, at the rates estimated to write off the value of the assets over their useful lives. Rates used are:

Computer Equipment	20% per annum
Office Equipment	20% per annum
Furniture	10% per annum
Motor Vehicles	25% per annum

2) SIGNIFICANT ACCOUNTING POLICIES (continued)

g) Intangible Assets

Acquired computer software and licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives (five to ten years).

h) Impairment of Non-Financial Assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which an asset's carrying amount exceeds its recoverable amount. Impairment losses are recognised in the income and expenditure statement. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

i) Foreign Currency Translation

The consolidated financial statements are presented in Trinidad and Tobago dollars, which is the Corporation's functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income and expenditure statement.

The results and financial position of all the Group entities that have a functional currency different from the presentation currency are translated into the presentation currency. All resulting exchange differences are recognised in equity.

j) Leases

Assets held under finance leases are capitalised as property, plant and equipment and duly depreciated. The liability net of finance charges is shown on the balance sheet and the interest element is charged to the income and expenditure statement over the term of the lease.

k) Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term investments with original maturities of ninety days or less and bank overdrafts.

2) SIGNIFICANT ACCOUNTING POLICIES (continued)

l) Provisions

Provisions are recognised when the Group has a present or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

m) Revenue Recognition

Income comprises the fair value of the consideration received or receivable for the rendering of services in the ordinary course of the Group's activities. Income is shown net of value-added tax, discounts and after eliminating services within the Group.

Interest income is recognised in the income and expenditure statement using the effective interest rate method. Dividend income is recognised when the right to receive payment is established. Realised investment gains and losses are recognised in the income and expenditure statement.

n) Borrowings

Borrowings are recognised initially at fair value, and are subsequently stated at amortised cost. Borrowing costs related to the acquisition, construction or production of qualifying assets are capitalised.

o) Separate Funds Under Management

The assets and liabilities pertaining to pension and other funds, which are managed in accordance with specific Investment Management Agreements, are not included in the balance sheet of the Corporation. The market value of these portfolios as at December 31, 2008 is \$538 million (2007: \$539 million).

p) Taxation

The Corporation is exempt from Corporation Tax, however, it is subject to the Green Fund Levy.

Income tax is payable on profits by the subsidiaries and is recognised as an expense in the period in which profits arise. Taxes are based on the applicable tax laws in each jurisdiction. The tax effects of income tax losses available for carry forward are recognised as an asset when it is probable that future taxable profits will be available against which these losses can be utilised.

3) INVESTMENT FUNDS

a) Growth and Income Fund Guarantee Reserve

In accordance with the provisions of Section 26(1) and (2) of the Act, in 1984 the Corporation established a Guarantee Reserve Fund in respect of the Growth and Income Fund (First Unit Scheme) to ensure adequate funding of the Guarantee Pricing Plan. During 2008, calls in excess of \$72 million were made on the Fund, of which the Corporation met \$59.3 million through its Retained Income. The Corporation will continue to meet any shortfalls in the reserves through its Retained Income.

Fund reserve as at December 31	42,372	39,179

12) STATUTORY RESERVES

In accordance with Section 59(3)(d)(ii) of the Securities Industries Act By-Laws 1997, a reserve of \$5 million was established to satisfy the capital requirements for registration as an Underwriter and \$50,000 for registration as an Investment Adviser.

13 REVALUATION RESERVE

The revaluation reserve significantly reflects unrealised capital appreciation and depreciation from changes in the fair values of available-for-sale financial instruments held by the Corporation. Minor changes for foreign currency translations are also reflected therein. The revaluation of the investments held by the Investment Funds is reflected on the balance sheet of each of the Funds and is not included in this revaluation reserve.

14) MANAGEMENT CHARGE

	2008 \$'000	2007 \$'000
Growth and Income Fund	84,816	93,863

15) NET INVESTMENT INCOME – GROUP OPERATIONS

Net Investment Income – Group Operations primarily reflects the results of the Merchant Banking line of business and comprises the following:

	2008 \$'000	2007 \$'000
Interest and Other Fee Income	274,396	151,890
Interest Expense & Other Charges	(145,072)	(103,811)
Total	129,324	48,079

16) FOREIGN EXCHANGE GAINS/(LOSSES)

The exchange differences credited to the income and expenditure statement are included in other income and are as follows:

	2008 \$'000	2007 \$'000
Foreign exchange gains	3,628	6,739

17) IMPAIRMENT

There were no impairment issues for the current period. In 2007, the Statement of Operations of the US\$ Income Fund (formerly US\$ Money Market Fund) accounted for an impairment loss on a fixed rate bond, which was previously reflected at \$5.3 million, including \$2.2 million in capitalised interest. The issuer had defaulted on its obligation and all negotiations with bondholders to exchange their positions for new bonds with lower rates and longer terms have become protracted. Consequently, the capitalised interest portion of the bond was impaired (43%), leaving a recoverable value of \$3.1 million.

22) FINANCIAL RISK MANAGEMENT

The Group's activities, primarily in its Investment Funds and Merchant Banking lines of business expose it to a variety of financial risks, including security price risk, interest rate risk (fair value and cash flow), foreign exchange rate risk, credit risk, concentration risk, and liquidity risk.

The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance.

The Board of Directors of the Trinidad and Tobago Unit Trust Corporation has overall responsibility for the management of the financial risks faced by the Investment Funds. It has established a Risk Committee composed wholly of Directors whose role inter alia is to ensure that the overall risk profiles of the Investment Funds are consistent with their investment objectives. The Board Risk Committee meets on a monthly basis to consider the specific risk issues highlighted by the internal risk management committees it has established as well as to monitor the overall progress of the risk management framework.

The Board Risk Committee has established two internal management committees, namely the Asset/Liability Committee and the Credit Risk Committee with respect to financial risk management. These committees are composed of multi-disciplinary senior management members whose collective experience and expertise are utilized in determining appropriate approaches for managing and mitigating the financial risks facing the Group, as well as the Investment Funds. The Committees meet on a monthly basis to consider various risk reports tabled by the relevant management personnel.

The identification, measurement and monitoring of financial risk exposures is the daily responsibility of the Risk Managers. The Risk Managers report on these risks at the monthly meetings of the Asset/Liability and Credit Risk Committees and may also make recommendations for their management and mitigation.

Strategy in using financial instruments

Financial risks arise from the acquisition of various classes of financial instruments including equities and debt instruments (listed and unlisted). The Corporation's practice is to acquire financial assets, which provide consistent risk-adjusted returns relative to specific investment objectives of the individual Investment Funds. In general, the Investment Funds only take long positions in securities and neither use leverage nor sell securities short. The Investment Funds have no financial liabilities arising out of their investment activity.

Security price risk

The Investment Funds may acquire securities that are exposed to fluctuations in market value. These exposures create security price risk for the Investment Funds and may contribute to substantial volatility of their net assets. This risk is managed via careful asset allocation and security selection within specified limits.

Key influences on the asset allocation decision include domestic as well as global economic and financial market trends. In the case of equity, the security selection decision is typically influenced by consideration of fundamental and technical valuation factors as well as by the instrument's historical price sensitivity to the market. In the case of debt instruments, the security selection is typically influenced by consideration of the general interest rate outlook as well as the default likelihood of the issuer.

In respect of equities, the price risk of the Investment Funds is monitored and measured via categorisation of the stocks by their historical price sensitivity to the overall market. A historical price sensitivity below 90% is considered to be low whereas a historical sensitivity above 110% is considered to be high. A historical price sensitivity between 90% and 110% is regarded as comparable to the overall market.

22) FINANCIAL RISK MANAGEMENT (continued)

The price sensitivity of the Investment Funds' equity portfolios is provided below:

	Lower than market \$'000	Comparable to market \$'000	Higher than market \$'000
At December 31, 2008			
Growth & Income Fund	881,620	736,838	367,688
Universal Retirement Fund	39,448	11,350	18,346

Universal Retirement Fund	40,684	8,822	21,747
Total	1,563,057	614,970	770,574

If the TTSE Composite Index had increased/decreased by 1% as at December 31, 2008 with all other variables held constant, net assets attributable to unitholders would have risen/fallen by an estimated TT\$16 million for the Growth & Income Fund and by an estimated TT\$0.6 million for the Universal Retirement Fund. If the Standard & Poor's 500 Composite Index had increased/decreased by 1% as at December 31, 2008 with all other variables held constant, net assets attributable to unitholders would have risen/fallen by approximately TT\$3.12 million for the Growth & Income Fund and negligibly for the Universal Retirement Fund. Neither the TT\$ Income Fund (formerly TT\$ Money Market Fund) nor the US\$ Income Fund (formerly US\$ Money Market Fund) had equity exposures over the reporting period.

In respect of debt instruments, the interaction of interest and exchange rates as well as default likelihoods is monitored in order to determine the overall security price risk. This is described in subsequent sections dealing with interest rate risk, currency risk and credit risk.

Interest rate risk

Interest rate risk arises on interest-bearing financial instruments recognised in the balance sheet. The Group's interest-bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. The table below summarises the Group's exposure to interest rate risks. It includes the Group's assets and liabilities at fair values, categorised by maturity dates.

22) FINANCIAL RISK MANAGEMENT (continued)

The Investment Funds' holdings of listed and unlisted debt instruments are exposed to movements in market rates of interest. In general, rising interest rates expose the Funds to deterioration in net assets arising out of lower carrying values for bonds (fair value interest rate risk). Conversely, falling interest rates can expose the Investment Funds to potential diminution in earnings on variable rate instruments (cash flow interest rate risk).

Given the general offsetting effect of exposures to fair value interest rate risk and cash flow interest rate risk, the overall interest rate risk is managed by making judicious adjustments of the overall weighted average term to maturity (i.e. duration) based on the relevant economic and financial market outlook.

Management monitors the duration of the fixed income portfolio by segregating the securities by the earlier of contractual maturity or interest rate reset dates that are less than or equal to one year, greater than one year but less than five years, and greater than or equal to five years. The degree of interest rate sensitivity in the overall portfolio is then reflected by the relative proportions in the given maturity terms/interest rate reset frequencies.

An interest rate re-pricing analysis (as defined by the earlier of the contractual maturity or interest fixing date for each instrument) is provided below for the Investment Funds' fixed income portfolio as at December 31, 2008 and December 31, 2007:

As at December 31, 2008 the Investment Funds' TT dollar denominated fixed income positions were almost exclusively categorised as held to maturity. As a result, there was no exposure of net assets to changes in TT dollar interest rates, since this category of financial assets is not marked to market. However, a 25 basis point increase in US interest rates at the same date would have reduced the net assets of the individual Funds as follows:

	\$'000
Growth & Income Fund	223
TT\$ Income Fund	1,989
US\$ Income Fund	4,559

Conversely, a 25 basis point decline in US interest rates would have increased the net assets of the individual Funds as follows:

	\$'000
Growth & Income Fund	231
TT\$ Income Fund	2,040
US\$ Income Fund	4,660

22) FINANCIAL RISK MANAGEMENT (continued)

The Universal Retirement Fund had no material exposure to US interest rate movements as at December 31, 2008.

Exchange rate risk

The Investment Funds' net assets may fluctuate due to changes in foreign exchange rates. This risk is currently limited to the Growth & Income Fund, the TT\$ Income Fund and the Universal Retirement Fund as these TT dollar-denominated Funds may hold financial assets denominated in other currencies. The US\$ Income Fund's investments are exclusively in US dollars. As a consequence, the net assets and/or earnings of the Investment Funds could increase or decrease in value due to exchange rate fluctuations of individual currencies relative to the TT dollar. This risk is managed by restricting non-TT dollar holdings in the individual Funds to an appropriate proportion of net assets. The primary foreign exchange exposure in the Investment Funds is to the USD/TTD exchange rate given the negligible holdings of other currencies in the portfolios.

Management monitors the portfolio on at least a monthly basis to ensure that the foreign currency holdings remain consistent with the overall investment strategy.

The Investment Funds' foreign currency holdings as at December 31, 2008 and December 31, 2007 were as follows:

The Corporation's practice is to value the US dollar-denominated assets of the Funds at a "mid-rate" that is approximately equal to the average of ask and bid rates offered by local commercial banks. As at December 31, 2008, this rate stood at 6.23355 (2007: 6.25375).

A 1% depreciation of the TT dollar relative to the US dollar as at that date would have increased the net assets of the individual Funds as follows:

	\$'000
Growth & Income Fund	11,649
TT\$ Income Fund	5,126
Universal Retirement Fund	320

Conversely, a 1% appreciation of the TT dollar relative to the US dollar would have decreased the net assets of the above Funds by the identical amounts, as the foreign exchange exposure is not hedged.

22) FINANCIAL RISK MANAGEMENT (continued)

Credit risk

Credit Risk is defined as the risk of loss due to default or the risk of diminution of value or loss due to poor asset quality. In particular, the Merchant Banking operation is exposed to credit risk arising out of its direct lending and underwriting operations. The credit risk exposure of the Merchant Banking Department is managed through credit administration policies and limits that are approved by the Merchant Banking Committee of the Board. The Merchant Banking Committee is also responsible for the approval of all credit advances and underwriting transactions. All existing facilities are relationship managed and reviewed annually. The credit portfolio is routinely monitored for compliance with approved policies, limits and acceptable risk parameters by a Risk Manager and reported to the internal Credit Risk Asset/Liability Committee. Instruments past due but not impaired at the year end were as follows:

	2008 \$'000	2007 \$'000
Past due up to 30 days	99	-
Past due 30-90 days	156	-
Past due 90-180 days	27	-
Past due over 180 days	121,445	39,443
Total	121,727	39,443

These instruments are fully secured by collateral of \$144.2 million in market value.

The Investment Funds' holdings of debt instruments expose them to the risk that issuers or counterparties may default on their financial obligations, that is fail to make full timely payments of scheduled interest and/or principal sums. Default risk has the potential to lower net asset value or fund earnings in the event that part or all of the scheduled cash flows become uncollectible after being past due for an extended period of time. This risk of loss may be tempered by the availability of realisable collateral that enhances the potential recovery value on the debt instrument.

Default risk is managed at the outset by subjecting potential issuers/counterparties to a robust credit risk assessment process that results in the assignment of a credit score or rating. The level of exposure to the issuer/counterparty is then set based on its credit score or rating. For existing issuers/counterparties, a credit review is performed on at least an annual basis. Based on the outcome of the review, exposure limits to the issuer or counterparty may be increased, decreased or maintained going forward. These limits may take into account the value of collateral or other credit enhancements.

The overall Fund exposure to default risk is measured by monitoring the relative credit quality of the issuers making up the fixed income portfolio. Issuers/counterparties that are rated at least BBB- equivalent by international credit rating agencies or that have an internally determined credit score consistent with such a credit rating are deemed to have a high credit quality. Issuers/counterparties that are past due or otherwise distressed or that are exposed to considerable short-term economic/industry/project risk are deemed to have a low credit quality. All other issuers/counterparties are considered to be of moderate credit risk quality.

22) FINANCIAL RISK MANAGEMENT (continued)

The Funds' maximum exposure to credit risk (without taking into account any collateral held or other credit enhancements) is given below:

	2008 \$'000	2007 \$'000
Debt instruments - listed	675,336	814,001
Debt instruments - unlisted	12,049,461	11,977,089
Total	12,724,797	12,791,090

As at the financial year-end, a single instrument with an approximate carrying value of \$14.5 million was identified as being past due. Although the issuer was in arrears for over eight months as at the 2008 year end, the recovery value of the collateral property is judged to exceed the carrying value. The item was therefore not accounted for as an impaired asset.

Concentration risk

During the normal course of investment activity, the Funds may build up concentrations in single entities, groups of related/affiliated entities, sectors/industries and countries. Domination of the Funds individually and collectively in any one security, entity/group of entities, industry/sector or country/geographic region has the potential inter alia to magnify the impact of idiosyncratic events on net assets or earnings. In some cases, such concentrations may restrict the ability of the Funds to exit security positions without sustaining substantial loss.

Statutory restrictions limit the exposure of the Funds to any one issuer to a maximum of 10% of net assets and a maximum of 10% in securities in issue. Combined with additional internal risk limits, this prevents the undue build-up of issuer, sector and country concentrations in the Funds. As at December 31, 2008 there were no exposures to any single entity or group of related entities exceeding 10% of the Funds' combined net assets.

Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its payment obligations associated with its financial liabilities when they fall due. The Group's liquidity management process includes day-to-day funding, managed by monitoring future cash flows to ensure that requirements can be met, maintaining a portfolio of short-term investments that can be easily liquidated as protection against any unforeseen interruptions to cash flow and managing the concentration and profile of debt maturities.

Units in the Growth & Income Fund, the TT\$ Income Fund and the US\$ Income Fund are available upon demand. Consequently, these Funds are exposed to daily unit redemptions. The Funds mitigate this risk by maintaining adequate portfolio liquidity through appropriate cash, near cash and other short-term investments. Given the tradable nature of a substantial proportion of the Fund portfolios, this risk is not deemed significant.

Capital Management

The objectives with respect to the management of capital are to safeguard the Group's ability to continue as a going concern in order to provide returns and benefits for its stakeholders and to maintain a strong capital base for the development of its business. The capital maintenance objective of the Investment Funds under management is met through the risk management strategies adopted by the Corporation. Additionally, the Corporation has established Fund Reserves to treat with any capital losses in its investment portfolios.

27) INVESTMENT IN SUBSIDIARIES

a) Local Subsidiaries

The Corporation established three (3) wholly-owned local subsidiary companies incorporated under the Companies Act 1995 of Trinidad & Tobago as follows:

Company	% Shareholding	Date of Incorporation
UTC Financial Services Limited	100%	March 23, 1999
UTC Trust Services Limited	100%	June 2, 1999
UTC Property Holdings Limited (formerly UTC Property Development Limited)	100%	June 18, 2002

The UTC Property Holdings Limited is a wholly-owned subsidiary of the Corporation and all the Directors of this company are Directors of the Corporation. It has constructed and currently owns buildings for rental to the Corporation for its San Fernando, Chaguanas, Tobago and Arima branches. The name UTC Property Development Limited was changed to UTC Property Holdings Limited as of October 25, 2007.

The assets, liabilities and results of operations of these subsidiaries have been fully incorporated in these Financial Statements. The auditor for these subsidiary companies is PricewaterhouseCoopers.

b) Foreign Subsidiaries

The Corporation has established five (5) foreign subsidiaries as follows:

Company	% Shareholding	Date of Incorporation	Country of Incorporation
Unit Trust Corporation (Belize) Limited	90.31%	August 24, 2001	Belize
UTC Financial Services USA, Inc.	100%	June 8, 1999	Rhode Island, USA
UTC Fund Services, Inc.	100%	December 8, 1997	Delaware, USA
Unit Trust Corporation (Cayman) SPC Limited	100%	July 31, 2006	Cayman Islands
UTC Energy Investments Limited	90%	May 31, 2007	Delaware, USA

There are no transactions in UTC Fund Services Inc.

During this year, the names of subsidiaries were changed as follows:

Previous name	New name	Effective date
Belize Unit Trust Corporation Limited	Unit Trust Corporation (Belize) Limited	April 1, 2008
Chaconia Fund Services, Inc.	UTC Fund Services, Inc.	January 31, 2008

27) INVESTMENT IN SUBSIDIARIES (continued)

The auditors of these foreign subsidiaries are as follows:

Company

Unit Trust Corporation (Belize) Limited
 UTC Financial Services USA, Inc
 UTC Fund Services, Inc
 Unit Trust Corporation (Cayman) SPC Limited

Auditors

Pannell Kerr Forster, Belize
 Kirkland, Russ, Murphy & Tapp, USA
 Kirkland, Russ, Murphy & Tapp, USA
 PricewaterhouseCoopers, Cayman Islands

The Unit Trust Corporation (Cayman) SPC Limited was incorporated in 2006 and is authorised to issue voting and segregated portfolio shares. The Trinidad and Tobago Unit Trust Corporation has the sole right to hold 100% of the voting shares of the Company. As at December 31, 2008, the Trinidad and Tobago Unit Trust Corporation held one voting share at a value of \$623.55 (2007: \$625.38).

The segregated portfolio shares are held by various persons who have invested in the mutual funds issued by the Unit Trust Corporation (Cayman) SPC Limited. The balance sheet of this Company comprises the combined assets and liabilities of five mutual funds plus the value of the voting shares.

The subsidiary company substantially comprises these mutual fund net assets and has not been consolidated in these financial statements.

UTC Energy Investments Limited was incorporated in 2007 under the Laws of Delaware, USA. The Growth and Income Fund holds the additional 10% of this subsidiary. Since the assets of the Growth and Income Fund are included in the consolidated assets of the Group, 100% of this subsidiary's assets are incorporated in these Financial Statements, resulting in no minority interest from this investment.

The assets, liabilities and results of operations of these subsidiaries have been incorporated in these Financial Statements as appropriate.

28) RETIREMENT BENEFIT PLAN ASSETS

Prior to January 1, 2001 the Unit Trust Corporation Pension Fund Plan (the Plan) had been a defined benefit plan. The Plan received formal approval during 2002 for conversion to a defined contribution plan with effect from January 1, 2001 with pre January 1, 2001 benefits guaranteed. Retirement benefits are currently paid out of the Fund and are guaranteed for life. The defined benefits comprise a small portion of plan benefits and the pension expense is faithfully represented by cash contributions from the Corporation. This is due to the limitation required by IAS 19 section 58 (b)(ii) which prohibits recognition of the pension plan surplus unless it is available to the Corporation via reduction of its future contributions. For the financial year 2008, the Corporation contributed \$7.09 million (2007: \$5.97 million) to the Plan. This is in excess of the current service costs, but this excess will never be available to the Corporation and must be used to preserve members' contributions.

29) TAXATION

The local subsidiary companies are subject to Corporation Tax and foreign subsidiaries are subject to taxation relevant to the country of domicile.

	2008 \$'000	2007 \$'000
Net income before taxation	131,406	101,084
